 **TRUE**
RENEWABLES

 www.truerenewables.in

The Concept Behind Logo Making

The TRUE RENEWABLES logo blends three core elements of sustainable energy into a single, elegant visual identity:

1. Water Drop Symbolism

The primary blue block contains a curved white form inspired by a water droplet. This represents purity, sustainability, fluid energy flows, and the essential natural resources that power renewable ecosystems.

2. Wind Energy (Fan Blade Bisection)

The water-drop curve is cleanly bisected by a secondary white arc, symbolizing the blade of a wind turbine. This signifies motion, aerodynamic efficiency, and the continuous generation of clean power. The intersection elegantly conveys harmony between multiple renewable sources.

3. Morning Sunshine Arc

The lower white arc represents the rising sun—a morning sunshine arc. It communicates new beginnings, optimism, and the steady reliability of solar energy. The upward curvature subtly evokes growth and forward momentum.

Logo Usage Primary and Secondary Logo

logo Drawing

logo Icon

logo Grid Icon

logo emblem Icon

Primary

This logo became the basis of the brand's visual identity across various media

Secondary

A secondary logo is a simplified or altered version of the main logo to accommodate various branding and design needs. It is a more flexible logo variation that can be used when the primary logo may not fit or read well.

Light backgrounds, ensuring clarity and professionalism.

Vibrant on our brand blue, maintaining strong recognition.

High-contrast on bright backgrounds, perfect for sophistication.

WEBSITE BRANDING GUIDELINES

1. Blue (Primary Brand Color)

A strong, corporate blue used in the top-left block and curve.

Hex: #32589F

Usage: Brand identity, icons, highlights, backgrounds.

2. Orange (Accent Energy Color)

A bright, energetic orange used in the bottom curve.

Hex: #F05A28

Usage: Accents, CTA buttons, highlights for energy/renewable themes.

3. Dark Grey (Typography Color)

Used for the words TRUE and RENEWABLES.

Hex: #6D6E70

Usage: Text, secondary UI elements, icons.

4. White (Background / Neutral Color)

Hex: #FFFFFF

Usage: Backgrounds, spacing, clean minimal layouts.

Ensure text contrast ratio meets **WCAG** standards.

Type	Background	Text
Primary	Blue (#32589F)	White
Accent CTA	Orange (#F05A28)	White
Secondary	White (#FFFFFF)	Blue border

Icon Style

Line icons with rounded corners

Grey or blue stroke

Uniform 2px line weight

Card Layout

White cards with soft shadows

Rounded corners (6–8px)

Logo curves may be used as subtle background shapes

✓ Imagery Guidelines

Use:

Solar fields

Renewable tech close-ups

Team working on installations

Bright, eco-friendly visual tone

Avoid:

Overly dark or noisy images

Stock images with artificial saturation

✓ Website Typography
